WE ARE LIBRARY PEOPLE®

SCHOOL LIBRARIES

INSPIRATION FOR INTERIOR DESIGN

WE ARE **LIBRARY PEOPLE**®

A PLACE FOR READING, LEARNING AND COMMUNITY

A good school library does more than provide space for books. It inspires children and young people to read, creates room for concentration and learning, and encourages both community and curiosity.

We specialise in library design and help create school libraries that put students, everyday school life and the possibilities of your space at the centre. We advise on every aspect of the interior – from layout, zones and flow to the choice of shelving, book presentation, study spaces, reading areas, acoustics, colours and furniture.

BIG VISIONS OR SMALL CHANGES

A better school library does not have to start with a complete refurbishment. Sometimes, a few carefully chosen changes can make a big difference. This could mean better book displays, a new reading zone, more flexible furniture or a new way of using existing furniture and fittings.
We help you wherever you are – from the initial idea and small improvements to a complete school library.

A LIBRARY THAT CAN EVOLVE

Schools' needs change. That is why we build flexibility and longevity into the design from the outset. The interior should be able to adapt to new ways of working, new activities and new generations of students – and existing furniture can often be reused, relocated or combined with new solutions.
The goal is an inspiring and functional environment where different needs and activities can coexist side by side.

From idea to reality

WE HELP CREATE THE FRAMEWORK

Reading
Make books visible, accessible and inspiring.

Concentration
Create quiet spaces for reading and focused work.

Learning
Design for both individual work and collaboration.

Community
Make room for meetings, communication and activities.

Flexibility
Create a library that can evolve with the school's needs.

Expert advice
Get support with everything from a small change to a complete interior design.

Together, we create school libraries that make a difference.

FROM INSPIRATION TO A COMPLETE SCHOOL LIBRARY

Whether you are planning a major transformation or simply want to improve one part of your school library, you can start with your needs and budget.

VISIT WEBSHOP

Many of our products can be ordered directly online – when you already know what you need.

"We create school libraries that inspire children and young people to read, learn, concentrate and spend time together."

LOVE OF READING

Inspire a love of reading with playful surroundings. Both younger and older children are encouraged to read more when the interior is varied and playful. Use book cradles and podiums to make books stand out, while also using them as play or seating furniture.

Customised green Maria browsers with plenty of storage space. Maria browsers are available in different sizes and can accommodate a wide range of materials.

Sara browser, midi
A functional and contemporary browser that fits seamlessly into any area.

Picture book safari with Elof
The cute and charming Elof can be used both as a storage browser and for displaying books.

Specially designed play and display podium
Make books part of the play with integrated seating, reading nooks and play areas.

Anette browser with a great selection of picture books
Anette is a practical and spacious three-tier picture book browser.

Hang out with BOB!
Invite young children to read with this small, characterful chair designed especially for them.

DISPLAY AREAS

Tempt and inspire! Create display areas for different age groups, showcasing themes, projects, non-fiction, games and much more – inspiring students to discover something new!

Maria podiums for more than just display
Available in different sizes, the podiums can also be used as browsers or seating – simple and functional.

Stockholm display tower
Use it to highlight selected themes and showcase new arrivals.

Ella mobile display
Create an attractive and inviting display with this mobile A-frame display unit.

Emma podium
Catch readers' attention with this attractive and accessible double-sided book table, designed for front-facing book display.

DISPLAY AREAS

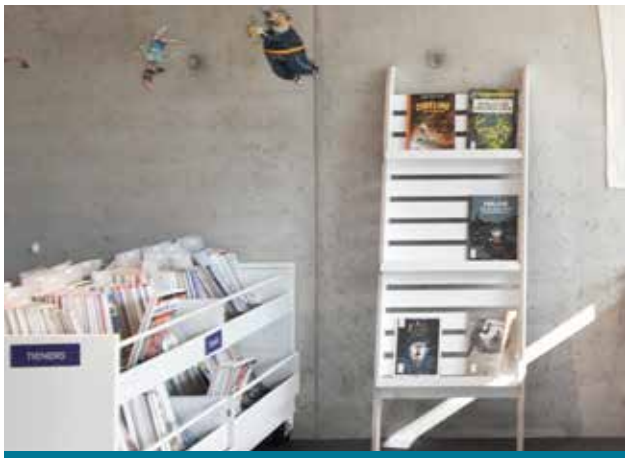
There are many types of display furniture, from display towers and ladders to book carousels and podiums. What they all have in common is their ability to present materials in an attractive and engaging way.

Multi-tier display towers
The Stockholm towers are highly visual and can accommodate a large number of materials.

Playful Labyrinth
An eye-catching display tower for both display and storage.

Book carousel
A mobile carousel with a large capacity and shelves that rotate independently.

Specially designed display podiums for board games
Think outside the box – bring games to life in the library.



Showalot display ladder
Flexible book display with adjustable shelves.

Maria display podium and browser in a range of colours
The podiums are available in a wide range of colours and variants.

SHOW THE COVERS

Show it - don't tell. Studies show that books and other materials are borrowed more often when their covers are clearly visible. Display as many covers as possible and tempt children to discover an exciting book.

Meet the popular Owl
The Owl is decorative and suitable for both smaller and larger books. It can be used freestanding or wall-mounted.

Catch their attention with an eye-catching display
The Cube book display gives books a boost and helps spark interest among children of all ages.

Woody wall display
Available in different colours and sizes, and suitable for mounting on a wall or end panel.

A world of exciting book covers
Bring together a selection of bookends in different colours and shapes – children will love them!

On a Bare Twig
A beautiful winter tree, ready to be planted with books.

Marit display podiums
Use them individually or combine them with other displays to create an eye-catching feature.

FLEXIBLE INTERIORS

Change is good. Mobile furniture is practical and creates opportunities for variation. It is ideal when floor space in the library is limited or when the layout needs to be changed – for example, when bringing a larger group of students together.

60/30 round shelving system and Box picture book browser – both on castors. Mobile units that can be moved as needed.

Eva cushions let imagination run free
Perfect for storytelling sessions on the floor, benches and steps.

Create your own landscape with Welle
A low lounge and pouf system made up of different elements.

Cloverleaf modular sofa and Drum pouf
A collection of flexible, mobile furniture that can create private spaces or open up the room for conversation and social interaction.

STUDY SPACES AND QUIET AREAS

Shhhhh.... It is important that every student has the space they need to study – independently, in groups or as part of a homework club. Provide work tables at the right height and comfortable chairs, positioned close to books and other essential study materials.

Make it comfortable
Soft sofas and chairs invite students to relax, read and concentrate.

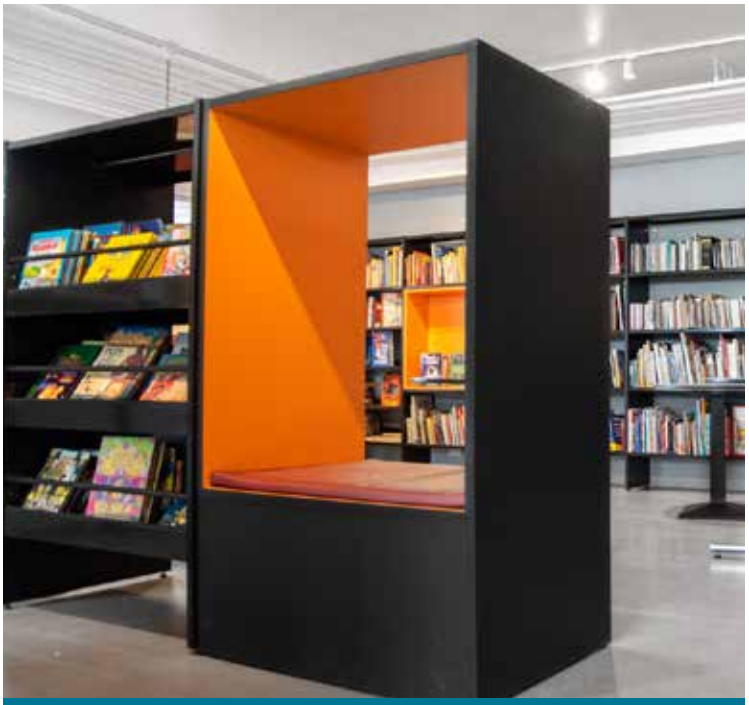
Sit high or stand
Study independently or work together around a high table.

Study spaces for everyone. A well-lit workspace and a calm environment are important for every student.

Relaxed spaces for group work
Create islands and study areas where students can work together and brainstorm on projects and assignments, both big and small.

READING CAVES

Shut everything else out! Pupils sometimes need a space of their own where they can read, study, listen or get creative. Create a peaceful retreat from a busy school day, with room to focus and recharge.



Lingo shelving – with integrated seating
Turn an ordinary shelving unit into a cosy reading cave.

Cocoon – create zones and seating areas
The modules can be combined in many different ways to create cosy caves and "rooms within a room".

Luna sound chair – for active listening or relaxation
Listen to an audiobook or music – the sound stays within the chair and does not disturb other library users.

Cosy reading caves throughout the library
Let your imagination set the limits! Choose reading caves in sizes and colours that complement the rest of the library interior.

TRANSPORT AND RETURNS

Make borrowing fun. Once students have been tempted by all the exciting materials, it is time to take their favourites home. Keep things organised and make it easy to transport books to and from the shelves with a book trolley.

Halland book trolley
Practical, single-sided and stable book trolley with 4 shelves.

Crossrunner Maxi
User-friendly and ergonomic book trolley with handles that provide a comfortable grip for users of all heights.

Book trolleys for returns
Use book trolleys for returned books, making it easy to transport them back to the shelves.

Return areas and stations. The Halland book trolley offers plenty of capacity for large quantities of materials and can be used to keep returned items organised and make sorting easier.

SERVICE POINTS

Stay close to the students. It is important that staff have an open, welcoming environment where they are easy to approach. There should be space for guidance and support, combined with functional and ergonomic furniture designed for everyday use.

Info Pod counter with adjustable height
A smart and compact counter with a clean, functional design.

Help students
The counter features cable management through the worktop and can be fitted with a holder for a CPU or laptop.

Add colour and LED lighting
Bring colour and light into the space. Info Pods are available in a wide range of variants, including LED lighting in the front panel.

Search, ask and find answers
Inform is a flexible and discreet search station that can be placed anywhere in the library.

An inviting and accessible point of contact with the Inform counter. Inform can be used as a freestanding unit or combined with different modules to create a customised solution.

WE ARE **LIBRARY PEOPLE**®

ARE YOU PLANNING TO TRANSFORM YOUR LIBRARY?

Whether you are dreaming of a completely new library or want to make better use of the space you already have, our design team can help. We advise on everything from interior design, zones and flow to furniture, materials and practical solutions – always based on your needs and budget.
