PUZZLE

CHILDREN'S FURNITURE

DESIGN BIRGITTE BORUP / CARSTEN NIKOLAJ BECKER

A children's furniture piece with simplistic puzzle like curves that provide children the opportunity to explore freely!

The design was developed from an active element concept, allowing group participation and easy arrangement for a multitude of activities.

Diverse in nature, the furniture was designed with a variety of uses in mind – within a library, in a waiting room, a learning facility, or indeed for private use.

Puzzle has been part of a number of exhibitions internationally and has also won the prestigious Japanese G-mark Prize in the category Good Design Grand Prize and the Norwegian Design Prize Designers Saturday.

Puzzle and its puzzle-like qualities connected to the child's motoric development through play wins attention and has, among others, been purchased by Lego.

Puzzle is made from birch coated with transparent lacquer.

The Puzzle stool has a height of 28 cm and a diameter of 35 cm. The table has a height of 46 cm and a depth and width of 90 cm.
