# NEW PRODUCTS YOU DO NOT WANT TO MISS

With a focus on younger users

This year's product catalogue contains many solutions for the development of younger users. A matter of course considering that libraries and learning environments are constantly changing. A child's whole world is about development. This sets challenges that learning environments and their furnishings need to face.

At Eurobib Direct we meet these challenges head-on with solutions that are flexible and mobile, and designs that are carefully considered down to the smallest detail. Sustainable and durable materials that can handle both tough environments and environmental requirements are also a natural part of our products.

For example, discover Cubik, where you can create a room in a room for practical, creative expression with a focus on curiosity using the expansions My Library Too, My Theatre Too & My Art Gallery Too along with other accessories. We're talking Makerspace for the youngest children. All based on your own assets to get started quickly and easily.

This year, Leopold, Elna and Elof have company on the savannah. Here, you will find all of their new friends in the acclaimed Wildlife collection.

## USEFUL TO KNOW

### SYMBOL GUIDE

The tool symbol denotes that the product needs to be assembled. Standard tools may be needed. Assembly instructions are included or can be downloaded from the webshop.

Environmental symbol describes the products with reference to the materials, their properties and environmental conditions or any other relevant information that may be worth knowing.

The information symbol conveys tips and advice that you may find useful, including care instructions and facts you should pay attention to.

The delivery time symbol indicates the product's delivery time (in weeks), i.e. 2-4 weeks. Products without this symbol are generally in stock and are available for immediate delivery. Orders for products in stock that are made before 12 noon are normally processed the same day.

# Fishy

## In the stillest water...

Meet Fishy – with smart functions that are off the scales. Use as a book support, book stand, wall display, or a coat hanger – or even as a cheeky decorative element. Simple, cool and cheeky are a few keywords.

Maybe we can get you to take the bait? Draw attention to books, organise coats, and more. Do we have you on the line?

Material	Lacquered metal.
Design	Bjarne Hjertvik for Eurobib Direct.
Motif	Freely based on an illustration by Yves Guillou.

## Wall display XL

Large wall-mounted display with matching “babies” swimming along (the small fish serve as display holders). Cheeky design for front display of, for example, adventure, fantasy, and ghost-story books for children & adolescents.

Capacity	Two standard books per holder, i.e. 6 books.
Size	W1160 x D90 x H395 mm Shelf length: 280 mm/holder. Display depth: 52 mm
Other	Keyhole attachments.

# Makerspace for the littlest ones – with a focus on curiosity

## Use your own resources to get started!

Simply put, Makerspace is a space for practical, creative expression with a focus on curiosity. You can get started quickly and easily with Cubik. A 'tool box' in the form of picture books and other library things you have at hand. You and your colleagues already have knowledge about and experience of libraries, children's literature, etc. That is obvious, if anything is. Limited space? Barely 2 m<sup>2</sup>! In addition to activities that promote reading development, you can also create space for theatre and other artistic activities. It can hardly get any easier than this to get started and gain experience with the Makerspace concept. Get the youngest participants (3–7 years old) active and involved.

Design Bjarne Hjertvik for Eurobib Direct.

## Cubik

Cubik is a versatile system for creating spaces designed with straight frames and wall elements.

Cubik consists of a framework and wall elements made of plywood or of black laminate with writing/magnet function. The elements are fitted with mounting holes for pass-through screws with knobs (easy to grasp).

Place them at the top on each side or both on one side.

Easy to assemble and add to!

Size	W1400 x D1400 x H1400 mm Pole: W1400 x D48 x H48 mm Wall elements: W1304 x H592 (sides)/640 (front) + B676 x H1304 (back panel) mm Counter: W1205 x D200 mm
Material	Pole and wall elements of UV-lacquered birch plywood and black laminate boards with writing/magnet function (metal under laminate).
Content	Framework: 13 square poles. Wall elements: Four plywood, two laminate with writing/magnet function. Fitting: board for counter.

# My Library Too – build space to promote reading development

## Library kiosk

Cubik is shown here as a space for play, inspiration and learning set up as a 'library kiosk'.

Fun-filled learning for the littlest ones: understanding, interpreting and communicating impressions of books and libraries. Imagine having the children help you increase book borrowing! Isn't that fabulous?

Naturally, Cubik is available with fittings just like a real library. The counter is included, but can be supplemented with shelves with front edge lip for front display of board and picture books and practical storage compartments.

# My Theater Too

## – children's theatre

### Children's theatre..

The stage, the actor and the audience are ready. The play can begin. Standing on stage is a fun way to try and practise various roles, whether we are talking about narration, song and music performance or play in the form of charades.

Let the children play and have an outlet for their imaginations by practising using their senses and the entire body. A compact stage of barely 3.4 m².

### Mood mask

#### Stay in character...

It may be tough for a young actor to stay in character on stage. We have the solution! How about a set of expressive and colourful face masks? A smart alternative to face painting – no mess on clothes (or in books for that matter). All you need for quick role changes. Suitable for children age 6 and older.

### Harlequin

#### Dress-up trolley on wheels ...

### A day in the Sahara...

You can also create a bit of a desert feel using the Lapsus clothes tree (E23541-43) shaped like the typical desert cactus. Cheeky is the word and it lets children wash as well as 'bothersome' adults hang up their coats before they get to know Doris better.

## Elna

### For picture books...

Meet Elna the elephant. She loves being with children and is happy to be fed with books (that's allowed). Books that she generously shares. Elna also has her own very special hiding places for books for children to explore or crawl in under. Absolutely, there is space for a lot of books.

### End panels

Jigsawn and recessed panels with interior grooves/brackets for installing shelves, compartments and/or reading space. Supplied with adjustable feet.

Size W780 x D1528 x H1328 mm

### Shelves & compartments

Depending upon the size of the books, Elna's trunks can be fitted with up to four shelves with front edge lip for front display (adjustable).

Elna is also fitted with one storage shelf and two picture book compartments.

All shelves and compartments have ribbed rubber mats for the interior. The compartments are also equipped with removable dividers (adjustable).

Capacity	Shelves (4):
	Approx. 100 front-displayed picture books.
Storage shelf (1):	70–80 picture books.
	Compartments (2): Approx. 200–240 picture books.
