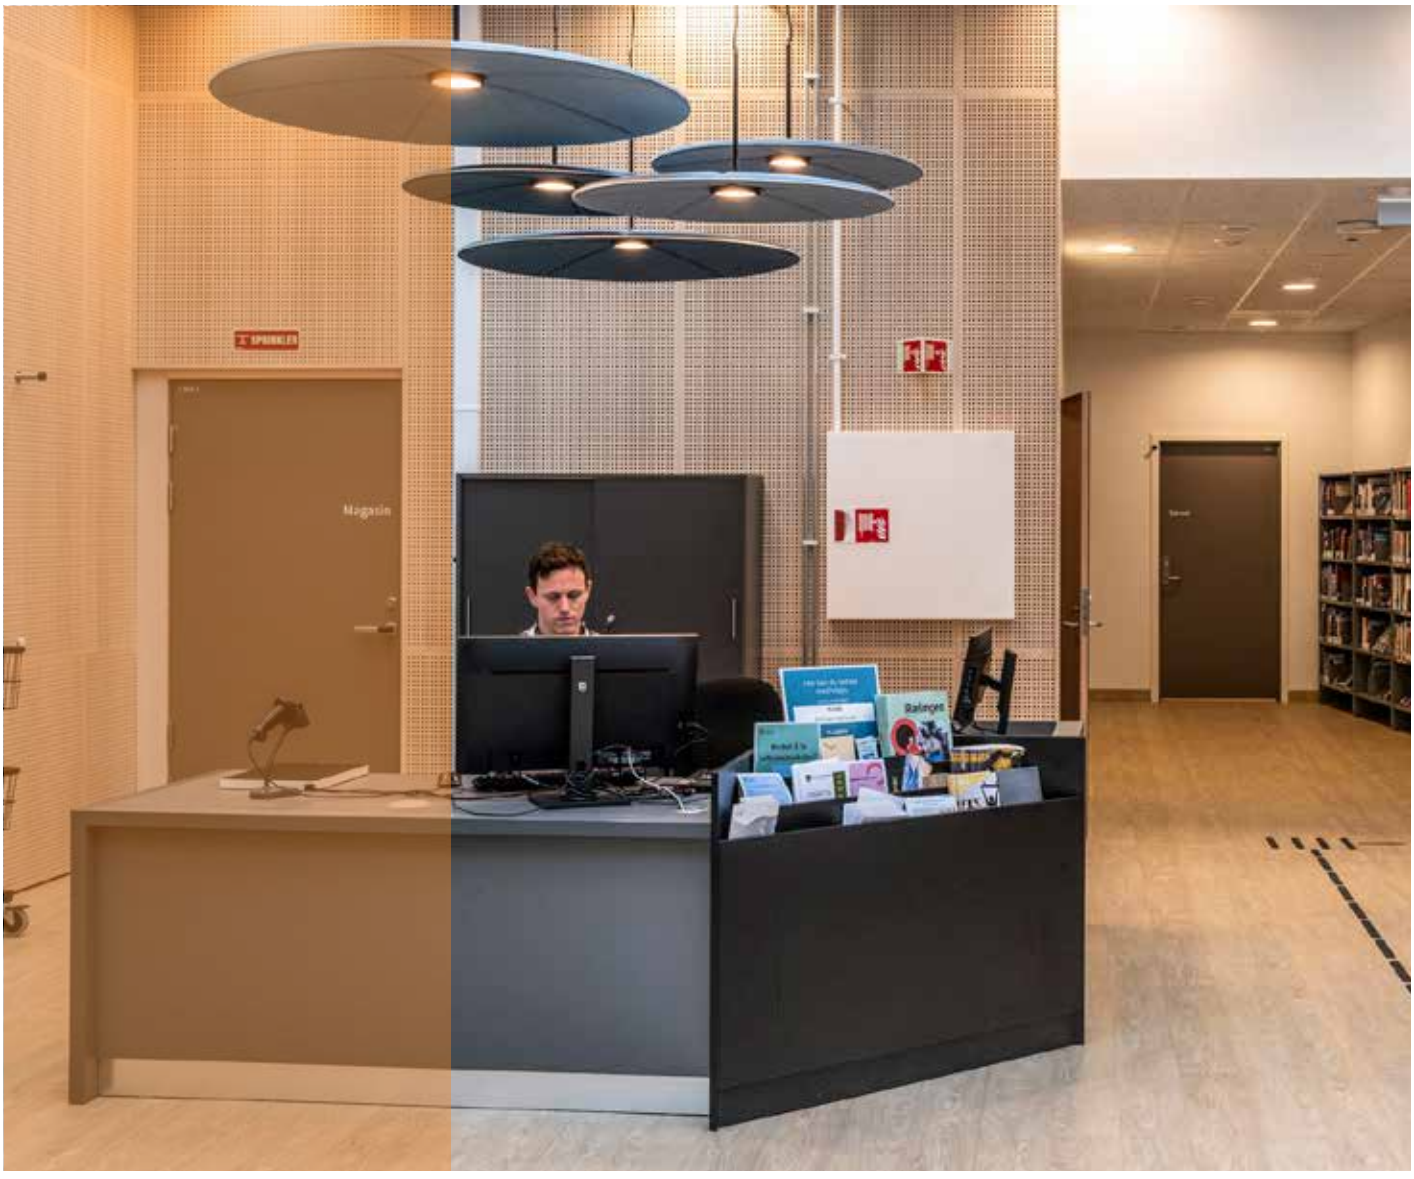
INFORM SERIES



THE INFORM SERIES

Greet the users of the library with the clear design of the Inform series of counters, desks and search stations.

The Inform series is easily recognized due to its up to 4 cm thick panels, creating a continuous frame around the work space. The counter system is specially designed for library use and is both functional, expandable and allows to a great extent customization to your needs. Compliment the counter with desks and search stations placed strategically around the library to create functional and user friendly work spaces for both the staff as well as the users of the library.

All three types of work spaces have a range of accessories available to create the right setting for all users.

TECHNICAL SPECIFICATIONS

STEEL COMPONENTS
are powder coated with standard polyester based powders that secures high UV resistance. Powders comply with EN 45545 (fire protection - similar to DIN 4201). Thickness of the coating is 60-80 my.

The powder used includes:
- no triglycidylisocyanurate (TGIC)
- no heavy metal-containing pigments such as lead and cadmium
- no volatiles

Antibacterial equipping of surfaces upon request.

LEG FRAMES
are made of steel section 40 x 40 x 2 mm and 40 x 20 x 2 mm and finished with a powder coat of thermo hardened polyester powder or epoxy (depending on choice of colour).

WOODEN COMPONENTS
are either melamine coated or high pressure laminated (HPL). They are conform to the norm EN 13986 of material type P2 and must only be used indoors. The border on each wooden panel is finished with an edge of melamine or with an edge of ABS (radius 2 mm). The edges are in the same colour of the wooden panels.

SEARCH STATION AND DESK
are produced in 40 mm particle board and have a melamine finish.

TABLE TOPS, OUTER, SIDE- & MIDDLE PANELS, BAG SHELVES AND COUNTER SHELVES
are produced in 40 mm particle board and have a HPL finish.

WOODEN CABINETS AND COUNTER TOP PARTS
are produced in 19 mm particle board and have a melamine finish.

STRAIGHT WOODEN FRONT PANELS FOR COUNTERS AND COUNTER SHELVES
are produced in 19 mm particle board and have a melamine finish.

CURVED WOODEN FRONT PANELS FOR COUNTERS AND COUNTER SHELVES
are produced in 19 mm particle board and have a HPL finish.

PLINTH
is produced in 19 mm particle board and has a melamin aluminum finish.

ACRYLIC COMPONENTS
ACRYLIC FRONT PANELS
are made of 5 mm acrylic glass panel, known as Plexiglas XT®. This material is conform with the EU norm EN 13501-1 (classification D like the German's norm DIN 4102-1)

LIGHTING
LIGHTING FOR COUNTER
You can add light under the counter with the use of an acrylic front panel. This light is only for use indoors and is conform with the norm 60598-1 ed 2000 + A 11 ed. 2000, EN 60598-2-1 Ed. 1998.

CLEANING
Clean wooden-, metal- and acrylic surfaces with a damp cloth and wipe dry with a clean cloth. Use a water based cleaning agent. DO NOT USE A DETERGENT!

INFORM COUNTER

Inform is a modular piece of furniture. Straight and curved elements can be used as freestanding counters or randomly combined. The special design of the table tops and side panels creates a continuous surrounding frame which unites the single elements into an expressive optical unit.

Inform's modular construction allows an individual adaptation to functional and design requirements, as well as to architectural conditions. You are able to reconstruct and add on as well as electrically adjust the counter to your ideal working height. Modules in the two heights; 74 and 100 cm can be combined in may ways. The counter is also suitable for use with RFID systems.

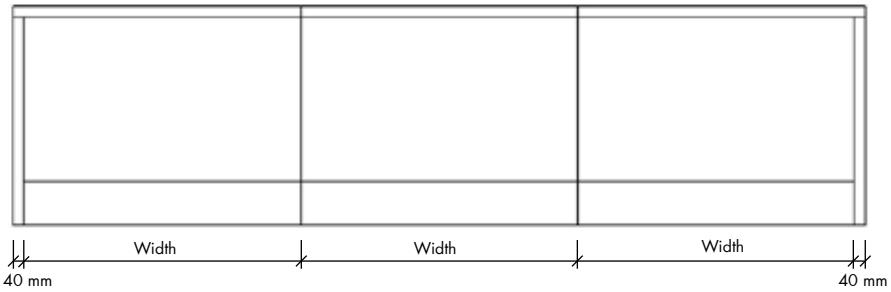
CONSTRUCTION
The construction of the counter Inform is based on a left-to-right sequence (seen from the person's view sitting behind the counter). The counter has 1.5 cm adjustable feet.

MOUNTING TOLERANCES
All our components for the Inform counter are produced according to the norm DIN ISO 2768-1.

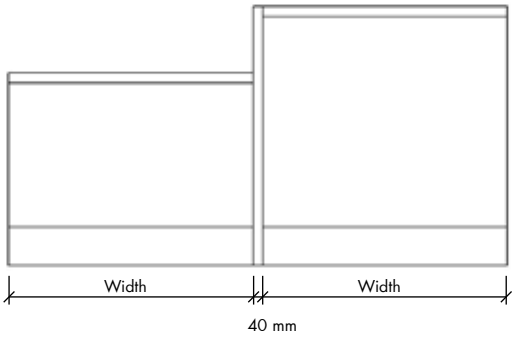
ASSEMBLY
No special fittings or tools are needed.

DIMENSIONS
For planning purposes, please note the below measurements. The listed measurements in the catalogue/price list are the effective measurements for the front panels only. It is necessary to add 4 cm with all the side/end panels, step counter middle panels and middle panels in connection with height adjustable counters.

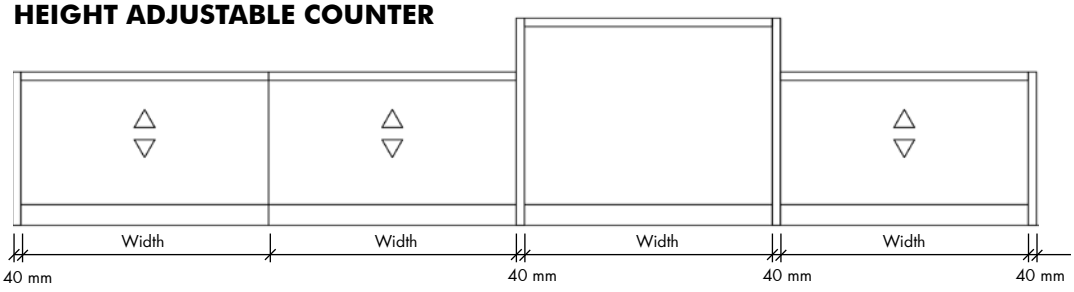
STARTER-, MIDDLE- & END COUNTER



COUNTER IN DIFFERENT HEIGHTS



HEIGHT ADJUSTABLE COUNTER



RFID INSTALLATION

The Inform counter offers the option to install an RFID PCB under the countertop, whether straight, curved or height adjustable. The 4 cm thick countertop is recessed below the central section to allow for the optimal positioning of the RFID PCB as needed. As far as the dimension of the countertop is concerned, the central cutout section leaves a peripheral circumference of 8 to 11 cm to preserve the visual aesthetics of the 4 cm top. In the cutout section, the countertop is 2 cm thick, thus complying with the technical specifications of most RFID systems for counters.
