

INFORM SERIES

EUR PRICE LIST
01.01.2024

THE INFORM SERIES

Greet the users of the library with the clear design of the Inform series of counters, desks and search stations.

The Inform series is easily recognized due to its up to 40 mm thick panels, creating a continuous frame around the work space. The counter system is specially designed for library use and is both functional, expandable and allows to a great extent customization to your needs. Complement the counter with desks and search stations placed strategically around the library to create functional and user friendly work spaces for both the staff as well as the users of the library.

All three types of work spaces have a range of accessories available to create the right setting for all users.

The price list is valid from 01.01.2024 until 31.12.2024.

Conditions of sale and terms of delivery

All prices exclude VAT and delivery. Please see our conditions of sale and terms of delivery on our website.

Updating the price list

The price list will continually be updated and can be downloaded on our website. Please contact our sales office, who will forward a log-in and password via e-mail. We reserve the right to make product and price alterations without prior notice and accept no liability for printing errors.

DESIGN OPTIONS

WOODEN COMPONENTS - VENEER

A PRICE GROUP - BASIS PRICE

55
Light steamed
beech

66
Oak

67
Maple

68
Ash

69
Birch

Note:

- Table and work surfaces with solid wood veneer only have limited abrasion resistance. We recommend using HPL (which has a special overlay). For these types of surfaces, due to its higher durability against damages and scratches. Do not use veneer surfaces. If veneer is used for counter tops, we do not accept any complaints for damages or scratches.

TECHNICAL SPECIFICATIONS

STEEL COMPONENTS

are powder coated with standard polyester based powders that secures high UV resistance. Powders comply with EN 45545 (fire protection - similar to DIN 4201). Thickness of the coating is 60-80 my.

The powder used includes:

- no triglycidylisocyanurate (TGIC)
- no heavy metal-containing pigments such as lead and cadmium
- no volatiles

Antibacterial equipping of surfaces upon request.

LEG FRAMES

are made of steel section 40 x 40 x 2 mm and 40 x 20 x 2 mm and finished with a powder coat of thermo hardened polyester powder or epoxy (depending on choice of colour). Note: a leg frame is required per counter top in the same counter height.

WOODEN COMPONENTS

are either melamine coated, high pressure laminated (HPL) or have a environmental-friendly transparent lacquered veneer finish. Differences in colour underline the characteristics of veneer and cannot be avoided. They are conform to the norm EN 13986 of material type P2 and must only be used indoors. The border on each wooden panel is finished with an edge of melamine or with an edge of ABS (radius 2 mm). The edges are in the same colour of the wooden panels.

SEARCH STATION AND DESK

are produced in 40 mm particle board and have a melamine/veneer finish.

COUNTERS, SIDE- & MIDDLE PANELS, BAG SHELVES AND COUNTER SHELVES

are produced in 40 mm particle board and have a HPL finish.

WOODEN CABINETS, COUNTER TOP PARTS AND DECORATIVE BOARDS

are produced in 19 mm particle board and have a melamine/veneer finish.

STRAIGHT WOODEN FRONT PANELS FOR COUNTERS AND COUNTER SHELVES

are produced in 19 mm particle board and have a melamine/veneer finish.

CURVED WOODEN FRONT PANELS FOR COUNTERS AND COUNTER SHELVES

are produced in 19 mm particle board and have a HPL finish.

PLINTH

is produced in 19 mm particle board and has a melamin aluminum finish.

ACRYLIC COMPONENTS

ACRYLIC FRONT PANELS

are made of 5 mm acrylic glass panel, known as Plexiglas XT®. This material is conform with the EU norm EN 13501-1 (classification D like the German's norm DIN 4102-1)

LIGHTING

LIGHTING FOR COUNTER

You can add light under the counter with the use of an acrylic front panel. This light is only for use indoors and is conform with the norm 60598-1 ed 2000 + A 11 ed. 2000, EN 60598-2-1 Ed. 1998.

CLEANING

Clean wooden-, metal- and acrylic surfaces with a damp cloth and wipe dry with a clean cloth. Use a water based cleaning agent. DO NOT USE A DETERGENT!

INFORM SEARCH STATION

SINGLE- AND DOUBLE-SIDED

INFORM SEARCH STATION

SINGLE- AND DOUBLE-SIDED

Search station with offset keyboard and monitor levels. Place the CPU in the lockable cabinet with sufficient ventilation provided by the recoiling base and the air and cable conduct. Place freestanding monitor on the top level, alternately install a console for flat-screen monitors. The back wall/door can be ordered in different colours compared to the top/side panels.

Inform search station - single-sided

Exterior: W750 x D625 x H1065 mm
Interior: W670 x D260 x H740 mm
With choice of desk grommet.

INFORM COUNTER

Inform is a modular piece of furniture. Straight and curved elements can be used as freestanding counters or randomly combined. The special design of the table tops and side panels creates a continuous surrounding frame which unites the single elements into an expressive optical unit.

Inform's modular construction allows an individual adaptation to functional and design requirements, as well as to architectural conditions. You are able to reconstruct and add on as well as electrically adjust the counter to your ideal working height. Modules in the two heights; 740 and 1000 mm can be combined in many ways. The counter is also suitable for use with RFID systems.

CONSTRUCTION

The construction of the counter Inform is based on a left-to-right sequence (seen from the person's view sitting behind the counter). The counter has 15 mm adjustable feet.

MOUNTING TOLERANCES

All our components for the Inform counter are produced according to the norm DIN ISO 2768-1.

ASSEMBLY

No special fittings or tools are needed.

DIMENSIONS

For planning purposes, please note the below measurements. The listed measurements in the catalogue/price list are the effective measurements for the front panels only. It is necessary to add 40 mm with all the side/end panels, step counter middle panels and middle panels in connection with height adjustable counters.

CONNECTIONS

If you wish to combine a rectangular/curved counter with a rectangular/curved counter of the same height, you must use a steel leg frame.

If you wish to combine a rectangular/curved counter with recessed rectangular/curved or step counter, you must use a middle panel.

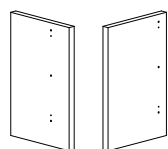

Steel leg frame

Must be used when assembling 2 modules of the same height.

RECESSED COUNTER

RECTANGULAR COUNTERS

The design of Inform's recessed front panel allows for easy access on both sides of the counter and is especially suited for wheelchair use, as the front panel is placed 300 mm from the front. It is available in two heights; 740 and 1000 mm. This model can be combined with other recessed counters of the same height, step counters, height adjustable counters (only with H1000 mm standard counter), info counters, corner counters as well as display cabinets.

Recessed rectangular counter - starter

Remember to order front panel, see page 39 and leg frame/middle panel, see page 50. For counter with predrilled holes for cable conduct see pages 120-121.

The design of Inform's recessed front panel allows for easy access on both sides of the counter and is especially suited for wheelchair use, as the front panel is placed 300 mm from the front. It is available in two heights; 740 and 1000 mm. This model can be combined with other recessed counters of the same height, step counters, height adjustable counters (only with H1000 mm standard counter), info counters, corner counters as well as display cabinets.

90° recessed curved counter - starter

Remember to order front panel, see page 43 and leg frame/middle panel, see page 50. For counter with predrilled holes for cable conduct see pages 120-121.

Total price for configuration				5.564,08

Comments to configuration

- Monitor, office chair and text are not included in price.
- All prices are based on colours and surfaces in price group A, see pages 4-7 for colours.
- We recommend the use of desk grommets, cable rails and drawer pedestals with the Inform counter, see page 113.
- The bag shelf is in fact 1000 mm long, adapted to a 1200 mm front panel.

CORNER COUNTER

SQUARE CORNER COUNTER TOPS, FRONT PANELS AND LEG FRAME

The corner counter is ideal for combining with the rectangular counter and the info table. The corner counter creates a sharp angle with no optical interruptions, maintaining the design of a continuous frame.

Square corner counter top

Remember to order leg frame and front panel. For counter with predrilled holes for cable conduct see pages 120-121.

HEIGHT ADJUSTABLE COUNTER

RECTANGULAR COUNTERS

The height adjustable counter is a double construction with a moveable upper part and a fixed lower part. The moveable part of the counter slides along the walls of the fixed parts excluding possible safety risks such as entrapment and bruising. With the electrical driven height adjustable counter, you can adjust your working height ranging between 680 mm and 1180 mm. To construct a complete counter including a height adjustable counter, you must use the products shown on pages 72-81.

Height adjustable counter

Available in 3 versions:
 (1) for European market,
 (2) for US market 110V
 (3) for UK market.

Side, front and middle panels to be ordered separately. For counter with predrilled holes for cable conduct see pages 120-121.

Special rectangular, height adjustable, corner and info counters

COUNTER SHELF

STANDARD AND SPECIAL SOLUTIONS

COUNTER SHELVES FOR VARIOUS COUNTERS

When ordering freestanding counter shelf for your counter, please note the following:

A freestanding counter shelf has (equal to a freestanding counter) 40 mm end panels on both sides. The front of the counter shelf has the same measurement as the counter below. This means that if you place a freestanding counter shelf (with two end panels) on a counter built up of two modules, the end panel of the counter shelf will be placed on the top of the adjacent counter.

It is possible to construct a freestanding counter shelf that fits on the counters below, (see 3 options below), but this must be specially requested. Contact customer service for details.

Comments to configuration

- Monitor, display and text are not included in price.
- All prices are based on colours and surfaces in price group A, see pages 4-7 for colours.
- We recommend the use of desk grommets, cable rails and drawer pedestals with the Inform counter, see page 113.

DISPLAY AND STORAGE

CORNER DISPLAY UNITS

This is a slender corner solution with a presentation function towards the customer. The front-side shelves provide perfect storage for loose pamphlets, as well as for books and DVD's. The display unit also structures your counter and offers space e.g. book stands at standing height. The display units are ready for direct integration into all parts of the Inform counter. When constructing your counter, remember always to construct your counter from left to right when sitting behind the counter!

H870 mm - corner display unit

Comments to configuration

- Monitor and text are not included in price.
- All prices are based on colours and surfaces in price group A, see pages 4-7 for colours.
- We recommend the use of desk grommets, cable rails and drawer pedestals with the Inform counter, see page 113.
- The bag shelf is in fact 1000 mm long, adapted to a 1200 mm front panel.

DISPLAY AND STORAGE

DISPLAY CABINETS WITH STORAGE

This is a cabinet with double function: Display at the front and cabinet at the back! Inserted shelves at the front provide perfect storage for loose pamphlets, as well as for books and DVD's. The cabinet offers practical additional surface when standing behind the counter and comes in different heights and widths. The cabinets are ready for direct integration with rectangular, curved and height adjustable counters. The open back of the cabinet can be equipped with lockable doors.

H870 mm - display cabinet with shelves at the back and pamphlet display in front

With bottom shelf and one middle shelf at the back. Doors can be installed on back of display cabinet, see page 100.

Comments to configuration

- Monitor, drawer pedestal and keyboard are not included in price.
- All prices are based on colours and surfaces in price group A, see pages 4-7 for colours.
- We recommend the use of desk grommets, cable rails and drawer pedestals with the Inform counter, see page 113.

DISPLAY AND STORAGE

DISPLAY CABINETS WITH DRAWERS

This is a cabinet similar to the display cabinet with storage: It has the same front display, but with drawers at the back. Inserted shelves at the front provide perfect storage for loose pamphlets, as well as for books and DVD's. The drawers at the back are designed for organising different media by use of mobile dividers. The drawers are lockable and with drawer stop, which prevents the cabinet from tilting, when several drawers are open at the same time.

H895 mm - display cabinet with drawers at the back and pamphlet display in front

With 4 drawers. See page 100 for accessories for drawers.

H x W x D mm	Item no. Melamine	Price EUR	Item no. Veneer	Price EUR

To have the correct positioning of drill holes in combination with other counters or cabinets, you must use the following in the article number:

	Left panel	Right panel
No drill holes for connecting fittings	0	0
Drill holes for counter height 740 mm	2	2
Drill holes for height adjustable counter	3	3
Drill holes for recessed counter	4	4

H1130 mm - display cabinet with drawers at the back and pamphlet display in front

With 5 drawers. See page 100 for accessories for drawers.

H x W x D mm	Item no. Melamine	Price EUR	Item no. Veneer	Price EUR
1130 865 894	BI520957006	3.016,71	BI520957002	4.969,15

To have the correct positioning of drill holes in combination with other counters or cabinets, you must use the following in the article number:

	Left panel	Right panel
No drill holes for connecting fittings	0	0
Drill holes for standing height 1000 mm	1	1
Drill holes for counter height 740 mm	2	2
Drill holes for height adjustable counter	3	3
Drill holes for recessed counter	4	4

DISPLAY AND STORAGE

DISPLAY CABINETS WITH SHELVES AND SHELVING OPTIONS

Another cabinet with double function: Optional front display shelves and storage at the back! The front-side shelves (not included in price of cabinet) can be adjusted and can also be tilted for presenting your new acquisitions. With different heights and widths, the cabinets are ready for direct integration with rectangular, curved and height adjustable counters. The open back of the cabinet can be equipped with lockable doors.

H870 mm - display cabinet with shelves at the back and shelving options in the front

With bottom shelf and one middle shelf at the back. Front shelves are not included. Doors can be installed on back of display cabinet. See pages 100-101 for doors and shelves.

H x W x D mm	Item no. Melamine	Price EUR	Item no. Veneer	Price EUR
870 758 875	BI525715006	1.154,04	BI525715002	1.900,57

Monitor arm	B401184	845,08	1	845,08
Total price for configuration				4.404,44

Comments to configuration

- Monitor, office chair and text are not included in price.
- All prices are based on colours and surfaces in price group A, see pages 4-7 for colours.
- We recommend the use of desk grommets, cable rails and drawer pedestals with the Inform counter, see page 113.
- It is necessary to drill an Ø80 mm hole for the monitor arm on site or modify the article number for counter for predrilled hole, see pages 120-121.

FUNCTIONS

FUNCTIONAL ACCESSORIES

Desk grommet

Ø80 mm. Drill hole is not included. For placement of drill hole, see cable conduct on pages 122-123.

Material	Colour	Item no.	Price EUR
Plastic	Oyster white	B4015548	21,01
Plastic	Black	B4015542	21,01
Plastic	Silver	B4015549	21,01
Metal	Stainless steel	B4015553	68,76

Monitor arm

Silver. For placement of drill hole, see cable conduct on pages 120-121. Drill holes for monitor arm will most often be drilled on site.

Item no.	Price EUR
B401184	845,08

CPU holder

W230 x H551 x D500 mm. Laquered steel. Practical storage of CPU holder under counter. Does not fit with recessed counter.

Item no.	Price EUR
B401180	213,60

Cable channel

W495 x H70 x D115 mm. Laquered steel. Is bendable - can be used with both straight and curved counters. For required quantities, see below.

Item no.	Price EUR

RFID INSTALLATION

PREPARATION FOR INSTALLATION OF RFID IN COUNTERTOP

The Inform counter offers the option to install an RFID PCB under the countertop, whether straight, curved or height adjustable. The 40 mm thick countertop is recessed below the central section to allow for the optimal positioning of the RFID PCB as needed. As far as the dimension of the countertop is concerned, the central recessed section leaves a peripheral circumference of 80 mm to 110 mm to preserve the visual aesthetics of the 40 mm top. In the recessed section, the countertop is 20 mm thick, thus complying with the technical specifications of most RFID systems for counters.

RFID installation in rectangular counter

RFID installation in recessed rectangular counter
