FRONTLINE SQUARE

SHELVING & DISPLAY

DESIGN BCI

Frontline Square can be used for many functions...

Use it to store a large amount of books on the quadratic shelving system - or as a display, using a combination of both flat and sloping shelves. The top shelving on Frontline Square allows several usage options - e.g. as a work table, display or a play area. Or why not use it to create and visualise book themes to catch the attention of the visitor!

The design of Frontline Square is really multifunctional and can ideally be incorporated into many different environments.

Frontline Square is available in several variations.
Heights: 92 / 122 / 152 / 182 cm.
(total heights incl. castors: 105.2 / 135.2 / 165.2 / 195.2 cm).
Depths: 25 / 30 cm.
Widths: 75 / 90 cm. Total widths: (module 75) 108.2 / 113.2
(module 90) 123.2 / 128.2 cm.

FUNCTIONS

A range of functions is available to fit different needs of display and storage. They include:

- Sloping shelves
- Multimedia storage
- Browsers
- Pull-out browsers

Please see technical specifications for further details.

Choose between a painted or veneer finish. All standard models are equipped with 8 castors, so you can move the unit to any position.
